Custom parts for Indian Springfield Dark Horse & identical models

***D-Breisach, 21st Feb 2022* With the latest project - an Indian Springfield Dark Horse - accessories manufacturer WUNDERKIND-Custom once again demonstrates its diverse conversion potential for more individuality even for Indian's Heavy Weight series.**

The goal of this project was clear: developing a variety of coordinated accessories for an individual and harmonious look for the Heavy Weight series of Indian motorcycles. Wherever something at the original motorbike did not seem quite round, a specific helping hand was applied.

For better operability combined with a coherent design, there are individually adjustable brake and clutch levers in the handlebar area. Handlebar grips with vibration-reducing rubbers, mirrors and a replacement cover for the brake fitting in a matching design can be found now in the front, also. Covers for hiding the side reflectors round off the program.

The redesigned, sleek LED mini turn signals make the front much slimmer and integrate the turn signal perfectly. The newly designed, shortened front fender gives the motorcycle a completely different expression. The cover of the foot brake cylinder also finds a shapely replacement in a matching design to the cover of the front brake fitting.

Chic replacement pedals were made for the shift and brake levers, which are much easier to use thanks to their length and shape. An additional special feature worth mentioning is a lowering set for the pillion rests. This creates a much more relaxed and fatigue-free seating position for the pillion passenger.

Reduced to the essentials, the original license plate holder including lighting was also replaced. The rear is now adorned by a slim license plate frame with integrated LED lighting. The model-specific adapter ensures a precise fit on the original fender. And to ensure that everything runs smoothly in terms of sound, 'Dr. Jekyll & Mr. Hyde' contributed a design-matching exhaust.

Some of the custom parts mentioned here are also suitable for other models of the Bagger or Touring series from Indian. Details can be found on the manufacturer's website. All accessories comply with the German StVZO or have a parts certificate. Further information: [WUNDERKIND-Custom.com](https://www.wunderkind-custom.com)

WUNDERKIND-Custom is a German premium brand of ABM that produces high-end accessories for motorcycles. It has been founded in 2013 by the family head and CEO Christian Mehlhorn. While in the beginning, the brand produced parts only for

Harley-Davidson motorcycles it now contains also products for many common bike brands and custom bikes. All products are constructed, designed, manufactured and retailed under the umbrella of the well-known company ABM Fahrzeugtechnik GmbH in the south of Germany.

ABM Fahrzeugtechnik GmbH is a manufacturer of high-end accessories for sport and custom bikes. The company was founded in 1985 and named after the founder Arthur Berthold Munz. Since 2010, Christian Mehlhorn has been the managing director who is responsible for about twenty employees in the field of development, production, marketing and sales at the permanent business establishment in Breisach am Rhein, Germany. Meanwhile, the company has launched two brands: ABM ergonomic style & WUNDERKIND-Custom.
