Coming soon: Forward control for Harley Softail models from 2018

D-Breisach a. R. / 14th Jan 2019. Due to the successful launch of the second generation of the forward control the German producer WUNDERKIND-Custom will expand its product range for further motorcycle models.

In addition to the already known versions for Indian and Triumph Bobber models the forward control will also be available for the new Harley-Davidson Softail series as of March 2019.

Special emphasis should be placed on the numerous adjustment possibilities. It can be mounted at three different positions. Depending on the personal preferences, the forward control can be fixed either 6 cm, 8.5 cm or 11 cm further forward in comparison to the original one. Moreover, the angle of the brake pedal as well as of the gear lever is setable in many steps. Thus, there is nothing preventing you from a very individually tailored and relaxed seating position.

The shapely foot rests with the design ‚Crown‘ reduce vibrations and are made of sticky rubber so that the feet do not slip in case of wetness. A CNC-milled foot brake cylinder with a suitable steel brake line and a high-end switching rod are included in the delivery.

All parts are CNC-milled and surfaced by house-made anodized layer BLACKPearl. The certification is in preparation. The price will be announced when launching the new product.
